This one will be the most beautiful and mountainous of all editions held up to now, with difficult navigation and orienteering, even though competitors will be provided with quite up to date 1:25000 and 1:50000 maps, an incredible canyoning inside a cave, rafting, kayak in lakes, ciclable high mountain paths and unforgettable treks through summits higher than 2.300 metres.

More than 15 teams, even from Australia or New Zealand have confirmed their attendance, closely approaching the limit of 25 teams.

Warmest greetings from all the staff of Meridiano Raid.
